

ENVIRONMENTAL PROTECTION AND WASTE MANAGEMENT POLICY

As TIARA HOTEL & SPA family, as all individuals and businesses should do, we are committed to our environmental policy.

We serve as y ml. But our goal is to achieve a low environmental performance.

We consider environmental protection and waste management policy under three headings; Waste Management, Legal Requirements, Natural Resource Management;

☐ Uncontrolled collection of hazardous waste leads to air, water and soil pollution. In our facility, hazardous wastes are collected in our hazardous waste storage area and disposed of in a timely manner in accordance with the regulation. To ensure the safety of the environment in each of our activities, ☐ To determine the environmental impacts of the activities carried out in all our locations,

To prevent or minimize pollution and to protect the environment, to allocate resources for the protection and improvement of the environment, scientific and technological

To work by taking advantage of the developments, ☐ To fully comply with environmental laws and regulations,

☐ To create continuous training opportunities in order to increase environmental awareness in the K r m,

to ensure that it has the necessary awareness to protect the environment, ☐ To take into account the environmental approaches of the companies in the selection of suppliers; with the suppliers we work with

To establish an open, active and productive cooperation within our environmental policy and to increase the environmental awareness of others, to ensure the development of the Environmental Management (Environmental Management request) by constantly reviewing it.

As TIARA HOTEL & SPA family; With the knowledge that the environment we see is entrusted to us; In order to reduce the use of natural resources, to prevent pollution, to eliminate wastes in a good way, to support efficient energy use, to realize the commitments defined above, we are committed to providing and continuously improving all kinds of human, infrastructure and working environment resources required throughout the enterprise TIARA HOTEL & SPA has an environmental management system that includes all departments. Environmental questions assigned in system B, approved and licensed consultancy firm from the Ministry of Environment and Urbanization

They work with their zaman. Internal audit reports, which should be done once a year, are prepared every month. Internal audit reports are evaluated at environmental coordination meetings. It is ensured that it is renewed according to the updates made and the deficiencies are eliminated. In B meetings, possible changes in the position are determined and necessary arrangements are made before they come into force.

The wastes in our hotel are classified in accordance with the regulation and without errors and recycled or disposed of. Necessary trainings are given to all our teammates regarding B cones. Thanks to the trainings, waste management is carried out with zero error. Considerable knowledge has been gained about environmental conservation and waste management. The legal position on the Environment and Energy issue jumps and we
